Nomination #	<u>90</u>	<u>89</u>
Regional Supervisor	<u>STS</u>	<u>11-14-89</u>
		Date
	<u>FI</u>	<u>12/13/89</u>
Drafted		Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Chum	7/20/84	X		
Pink	7/20/84	X		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

About 20 chum and 30 pink salmon gathered and spawned in the intertidal and lower reaches of this gravelly and sandy stream outlet. The stream is blocked by a rock wall about 100 feet in from the sea.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
